About the International Programs Office

The International Programs Office (IPO) at Purdue Calumet works to ensure that students, faculty, staff, and community members have opportunities to learn about the world through academic, cultural, and hands-on experiences. These initiatives include study abroad and exchange programs, international student services, peer mentoring, international partnerships and agreements, and intercultural programs and events. The IPO consists of the English Language Program, International Students and Scholars Services, International Admissions, and International Programs.

PURDUE
UNIVERSITY

CALUMET

A world-class degree from a world-class institution.

Explore your possibilities.

Take a walk through our world.

Learn the language.

While your future is taking shape, nothing compares to an education that offers hands-on experience. At Purdue Calumet, **Experiential Learning** is built into the curriculum for every baccalaureate degree-seeking student, not just a select few. Through this integrated approach, faculty mentors enable students to apply what they learn in the classroom to real-world situations. Experiential Learning at Purdue Calumet includes internships, undergraduate research opportunities, senior design projects, community service learning, and more.

While pursuing a degree at Purdue Calumet, students will be presented with opportunities for growth, both academically and personally. Fortunately, Northwest Indiana features a wide range of opportunities for adventure and experiencing American culture.

The **English Language Program (ELP)** at Purdue University Calumet provides students with the language skills needed to succeed in their university studies. Courses include reading, writing, listening, and conversation in addition to several elective options.

Students choose **Purdue University Calumet** for its variety of academic programs available at the undergraduate and graduate levels, and for its English Language Program (ELP). As one of four campuses within the prestigious Purdue University system, Purdue Calumet provides students the distinction of an internationally recognized and respected education.

With traditional strengths in engineering and technology, Purdue Calumet ranks among *U.S. News and World Report's* top engineering schools in the nation. Purdue Calumet is dedicated to preparing graduates of all programs for careers in a fast-paced, 21st century world by emphasizing structured, real-world experience throughout the entire curriculum. This hands-on approach to education, known as Experiential Learning, maximizes academic quality by providing opportunities to apply learned knowledge and skills both inside and outside the classroom.

Beyond academics, Purdue Calumet features a culturally diverse campus that is constantly enriched by new ideas and a growing community of international students. Conveniently located just 40 kilometers outside Chicago, it provides students with access to a global city right in the heart of the Midwestern United States.

With Chicago a brief 30-minute ride away, big-city fun is always accessible. There is plenty of professional sports, museums, music, and other entertainment in and around the community. If it is time for a bit of relaxation, the beaches of Lake Michigan are mere minutes away. It's the perfect blend of suburban life and big-city excitement!

Program Highlights

- One-on-one tutoring service provided by instructors with international experience and graduate degrees in TESOL and Applied Linguistics
- Access to American student mentors who work with ELP students in and out of the classroom
- Weekly cultural and educational field trips to events, museums and other destinations
- No "Test of English as a Foreign Language" (TOEFL) score required for undergraduate admission to Purdue Calumet, upon completing ELP Level 3

Our "Global" Village

The **University Village** at Purdue Calumet provides safe, state-of-the-art housing for students of all nationalities. These apartments include well-equipped kitchens, comfortable living rooms, and private bedrooms. The great location, fully furnished units, and extensive community amenities truly make the Village a home away from your home country.
